

## REQUEST FLOW

### FLOW

1. From profile of the coach the trainee can request a course after he fills the details of requirement of the course (REGISTRATION points already with you).
2. The coach and Admin receive the request of the trainee after he submits the registration form of course.

Here there are two options acceptance the request or refusal it

#### First option (acceptance)

- a. If the coach accepts the request, then the app sends the acceptance to the trainee and Admin.
- b. The trainee and Admin both can cancel the course anytime
- c. After the course has finished status, the APP sends a notification of thanks to trainee.

#### Second option (refusal)

- a. If the coach refuses the request, then the app sends the refusing to Admin and trainee. With sorry message
- **Every thing depends on change of status. Change of Status will generate a notification**
