Done   **POINT 1 :** Contact us screen and contains all the social media and contact information (managed from panel)

POINT 2:
REQUESTS USECASES :
App should maintain the requests usecases . Requests are of following Types :
Under Process
Approve/ Disapprove
Completed (with review)
Cancelled

So Every Trainee should maintain these actions with **details** like , we can put that thing on Profile Page
3 Under Process
, 2 Approved
 3 Disapproved
5 Completed
6 Cancelled

As a trainee I can see also the details of each of each request . I can see the **detail** which 3 courses are Under Process , Details like Course Name , Coach name , (IMP)

POINT 3 :
Status Coach should also maintain action usecases with **details** like Trainee ^

POINT 4 :
NOTIFCATIONS :
Admin can sent notification one to all , one to one o So when requests comes....rather than notification using Change of Status .

Admin can sent using a normel notification (to sepecifc trainee or tainer) as well . Better you create a button near Request of button o One Notification to all

POINT 5 :
REQUEST STATUS :

Admin can CHANGE the status of the request by using the control panel
o Complete. o Approval o Under process o Cancel the request.

Also trainee can change requests also

POINT 6 :
Done   **Menu Arrangment :**
When the app is opened, the main menu contains the following items(Home, About us, Courses, Notifications, album ,sign in)

After the user signs in, he main menu contains the following items (Home, About us, Courses, Notifications, album, profile, favorite, sign out).

Done

POINT 7 :
Auto Moving Sliders on Home Page
Change of words (I will sent on email)

POINT 8:
When the user signs up as a trainee, the verification message must be sent to his email, and then he activates it.

POINT 9 :
Filters in Courses Screen :

Trainerr can filter Courses by

Categories of Games (Home Screen)
Price
Rating
City (all City of UAE)
Sex of the coach (female or male).

POINT 10 :
REQUEST FLOW :
Trainee to Trainer :
At time of sending requests to Trainer :
• Name (fixed from profile)
• Email (fixed from profile)
 • Phone Number (fixed from profile)
• Hours
• Date
• Time
• Location
•Tall **(CM)**
•Weight **(KG)**
• Age
• 1 line Notes

Above this finalized but Final Flow from tainee , trainer and admin I will update you tonight

BASIC DESIGN TWEAKS

Done

Point 11 :
Change the Arabic font to Droid Arabic Kufi.

Point 12 :

Done

Remove the option of Language from Main Menu, and let it in the first screen of App. (I will share the screenshots)
- Image Reference: rather than Login and Guest, put English and Arabic

Point 13 :

Done

Add icons to items in main menu like Unique Stars , and make menu name on right side . I will provide you all the icons

When you click REGISTER A NEW ACCOUNT , You get would you like to For Cancel , As Trainee , As Coach

I need icons also on all three as well

Point 14:
Terms & Conditions
If the user signs up as trainee and submits the form of registration, the conditions and terms screen will be displayed to let the user read it and agree with it to complete the registration.

If the user signs up as trainee, after he submits the form of the registration and agree with the conditions and terms, the popup menu will be displayed, contains a message indicates the user does not has a disease that prohibits to take courses.

Point 15 :

Coach Profile I
Add fields in profile of the coach that allow the coach to specify the price of private lesson, and the duration of the lesson.

Coach Profile II
 After the coach submits his profile, he cannot edit the following fields, if he wants to change it through the admin.

Done

a. Experience
b. Qualification
 c. Achievement.
 d. Has Sport License or not

NEW REQUIRMENTS :

Point 16 :
Album item contains images that admin can upload it from control panel. Albums with Categories

Point 17 :
When the user signs up as a coach, the admin must agree, and then the account of the coach will be activated.

Point 18 :
Add the following fields to registration form of the coach
Nationality
Language "English, Arabic, Other"
Country (contains just UAE)
Emirate (contains all the emirates of UAE)
City (we will provide you the names of the cities)
Certificates (this field allows the user to upload his certificates as PDF, Doc, Image)

Done

Point 19 :
Course Flow & Subscribers :

Add Courses from Admin Panel :

Select Trainer
Course Name
Game Category :
Course Country
Course City :
Course Detail
Course Price
Total number of Hours :
Course Time :
Total Trainee Allowed (subscribers) :

The app screen of the course contains all points about the course, coach, and number of the subscribers (as a counter), and this number will be decreased when the user subscribes in this course, when the number of the subscribers are completed , the course will be deleted from app OR Message members Fulled
